#### INTRODUCTION

The *CLXRGB60 Garden Light*  $\widehat{\ }$ *Wi-Fi Controller* allows anyone with a smartphone and Wi-Fi access to control their garden lights from anywhere on the globe. Connect your *4-Pin Plug + Socket* to your *Wi-Fi Garden Light Controller* to create stunning lighting displays or select from existing scenes to bring your garden to life. Adjust the colour, mood, intensity, brightness and

display all from your smartphone. Find out more online at <u>www.holmanindustries.com.au/rgb-colour-60W-garden-light-wi-fi-controller</u>

#### **INITIAL SETUP**

Download *Holman Home* onto your mobile device via the *App Store* or *Google Play*

- 2. Open *Holman Home* on your mobile device
- You may be prompted to allow notifications—
   Holman Home will still work if you choose not to

#### 3. Tap **REGISTER**

4. Read our Privacy Policy and tap **AGREE** if you wish to proceed

5. Follow the prompts to register a *Holman Home* account with your email or mobile number

When entering an email address ensure the country is correct as this may affect your ability to share control of your *Garden Light Controller* with other users

You may be prompted to allow
 Holman Home to access your
 location. This allows the app
 to show weather information.
 Holman Home will still work
 if you choose not to allow this

14. Tap RESTORE FACTORY
DEFAULTS to remove your *Garden Light Controller* from *Holman Home* and clear all
settings back to factory defaults

#### TROUBLESHOOTING

Symptom	Suggestion				
	1. V	When adding your <i>CLXRGB60</i> to <i>Holman Home</i> :			
	6	Confirm your <i>CLXRGB60</i> is powered <b>ON</b>			
	6	Confirm Wi-Fi <b>AP</b> on your <b><i>CLXRGB60</i></b> is flashing <b>RED</b>			
	6	Confirm both your <i>CLXRGB60</i> and smartphone are within Wi-Fi range			
	(	Make sure the network functions of your Wi-Fi router and smartphone are unblocked; firewalls can block certain ports			
	6	Confirm your Wi-Fi network name (SSID) has been entered correctly, including spaces. Note this is case sensitive			
	(	Confirm your Wi-Fi network password has been entered correctly			
	6	Confirm your <i>CLXRGB60</i> is connected to a 2.4GHz			

#### *CLXRGB60 Controller* cannot connect to *Holman Home*

Wi-Fi network (not 5GHz), enable the broadcast and do not allow the Wi-Fi network to be hidden

- Confirm your Wi-Fi router encryption method is WPA2-PSK and authentication type is AES, or both are set to automatic
- If the number of connected devices to the Wi-Fi has reached the amount limit (usually 16 or 50 devices), turn off other Wi-Fi devices and configure again
- If your Wi-Fi router enables the MAC address filter, remove the device from MAC filter list and make sure the Wi-Fi router is allowing your *CLXRGB60* to be connected
- 4. Make sure that the Wi-Fi router has the DHCP service enabled. If it is not enabled, the address will be occupied
- 5. Your Wi-Fi router may not compatible with your *CLXRGB60*. It is recommended that you replace the Wi-Fi router and try again

No power. Try another power point to check—then contact

No power LED light on	our Customer Service team at 1300 176 188 or email support@holmanindustries.com.au for further assistance
No/rapidly flashing/ odd colour Wi-Fi indicator LED light	Possible lighting cable connection issue. If Wi-Fi LED stabilises when lighting cable is unplugged from controller, check cable connections along the light chain—starting with the first cable or tee connection from controller
Buttons not responding	Please contact our Customer Service team at 1300 176 188 or email support@holmanindustries.com.au
